Other Important Information

Celebrating Dr. Ursula Franklin

Sincere appreciation is extended to the students, alumni, parents, staff and former staff for their contributions to the planning for this coming Thursday evening's event. Ursula Franklin Academy is a very unique school founded on the values that Dr. Franklin lived her personal and professional life by. Thursday evening is our opportunity to come together as community to honour and pay respect to Ursula. Most students will be attending. We extend a special invitation to our parents as well.

UFA Students Turn Paparazzi

For the duration of the TIFF festival Grade 10 UFA photography students are shooting the stars on the red carpet at Gala Presentations. The students learn about press and paparazzi style photography in class and head to the "fan zones" set up by event organizers where they have a chance to see how the professionals do it and take photos of their own. The stars often open up to seeing high school students on assignment who then come back with some great photos to share.

Here we see Asha T-M with none other than Matt Damon. Photo credit: Alyah O.
