

Please find attached an updated UFA NewsFlash to reflect the compulsory two-week school closure after the March Break.

Please note: you will have received information from the TDSB about the school closures to take place after March Break. In addition, please note that your child's teacher may be posting work or review on their class websites. Students have been encouraged to check these sites after the March Break. We also heard from the Minister of Education that there may be resources provided by the Ministry to support students. I will send how to access such materials if and/or when they become available. Please also note that Barbara and myself will be available after March Break via email should you need us and we will endeavour to support you remotely as best we can. More information will be shared with families regarding postponed and/or cancelled events when that information is available and the school is back up and running in April.

Finally, please find attached the recently released reports related to Ontario teenage drug use. This is a long-term study that has taken place since 1977. UFA students were a part of this large-scale survey last year. This information will be interesting for both students and their parents and I hope will form the basis of meaningful discussions at home - particularly about the alarming increase in student vaping behaviours.

Signing off. Stay well, and as everyone is reminding us ... wash your hands.

Georgia
